

**Dell EMC NETWORKER
ADMINISTRATION**

Course Content

The content of this course is designed to support the course objectives and is provided in a role-based structure.

Module 01: Networker Overview

Lesson 01: Networker hosts, process and backup flow

Lesson 02: Networker features and functions

Lesson 03: Networker backup terminology

Module 02: Networker planning and installation

Lesson 01: Installing Networker server and NMC

Lesson 02: Starting and Stopping Networker processes

Lesson 03: Connecting to console server

Module 03: Networker Resources and Administrative interfaces

Lesson 01: Networker Resources

Lesson 02: Networker Administrative interfaces

Module 04: Performing backups

Lesson 01: Data Protection Policies

Lesson 02: Running and Monitoring Backups

Lesson 03: Advanced Backup Options

Lesson 04: VMware Backup Options

Module 05: Networker Media Management

Lesson 01: Networker Pools Overview

Lesson 02: Configuring a Pool Resource

Module 06: Configuring and Managing Devices

Lesson 01: Devices Overview

Lesson 02: Using Disk Type Devices

Lesson 03: Configuring and Managing a Library

Module 07: Networker Data Management

Lesson 01: Querying the Client File Index and Media Database

Lesson 02: Manual Management of the Networker Databases

Module 08: Networker Recovery

Lesson 01: Networker Recovery Overview

Lesson 02: Performing Browsable Recoveries

Lesson 03: Performing Save Set Recoveries

Module 09: Performing Staging and Cloning

Lesson 01: Performing Networker Cloning

Lesson 02: Performing Networker Staging

Module 10: Networker Security

Lesson 01: Networker Security Features

Lesson 02: Networker Authentication and NMC

Lesson 03: Networker User Groups

Lesson 04: Networker Logs

Lesson 05: Configuring Networker in a Firewall Environment

Module 11: Administrating Networker

Lesson 01: Networker Management Console Administration

Lesson 02: Networker Management Console Reporting

Lesson 03: Protecting the Console Database

Lesson 04: Networker Parallelism

Lesson 05: Software Distribution

Lesson 06: Configuring Networker in a Firewall Environment

Module 12: Recovering Networker and NMC Servers

Lesson 01: Protecting the Console and Networker Server Databases

Lesson 02: Recovering the Networker Server

Duration: 5 Days
